O. P. McCARTHY M. M. KIRKPATRICK

New Orleans, Louisiana, U.S.A.

note - this is not good enough but it as a basis for further expansion

GENTLEMEN

I have been for the past three years vitally interested in your organization. Vital is the only word & constants that properly describes my feelings. There is and will be a vital need for a group of your caliber in the United States. I would like to join your group, but I am only in need of training and guiding, so to speak. I was told by the head of the C.I.A. here in New Orleans that you are interested in individuals that in time might have the potential required potential. I have little knowledge of International Politics but my curiosity has been implacably aroused. There and mechanizations however, nothing in particular, to recommend me as a possible trainee with your force, except possibly my curiosity. I have however developed a very strong feeling of Nationalism & Chauvinism about the United States. Anything reflecting to cast aspersions upon her ideals & Eagle, irritates me immensely. This personality trait has been and is a constant cause of frustration to me as I do not care for the value of ~~any~~ Subversive groups existing within the country. My feeling I am sure are in many others. Our land is a land of freedom and anything that I speak against freedom should be in

probably tathed to. Our land is not their prayer. ~~Its~~ ~~most of~~ its freedom and honor depends on that great intangible called the human soul. Here Hitler discovered that he, quite frankly, could not misuse or abuse that spirit. In all of us there is heart. The brain is a wonderful mechanism, but without the heart and soul it is useless. We Americans have a genuine feeling for our fellow beings. But we detest those insidious forces that would strike at our heart and soul. Perhaps at first we feel their little stings and perhaps we slumber on. But if they are consistent in their venom, with that consistency, they seal their doom.

I am 24 years old, attended and graduated from New Orleans Academy here and am now attending night school at Tulane University. I hope that I will hear from you.

Sincerely,

Godfrey L. Kulapatush
